

*You wish to renew your SCHRS
rating certificate from the
previous year.
How to do that?*

It is very simple.

1. First case:

If SCHRS has already issued a Rating Certificate in a previous year and nothing has changed on the boat, it is sufficient for the owner to send by e-mail to admin@schrs.com, the number of his former certificate and a Sworn Declaration certifying that this boat has not undergone any modification. (See model below).

The 2026 rating certificate will be sent to you within 10 working days of receiving the request.

Note: As the SCHRS formula evolves, the rating of your boat may differ from the previous version.

Sworn Declaration

I, the undersigned (*name, surname*) :

(mobile) :

(email) :

owner of the catamaran under the SCHRS rating certificate (year, number):
certifies on the honor that my boat has not undergone any modification.

Date :

Signature:

2. Second case:

If there are only a change of a part or several parts of the boat (sails, daggerboards, weight, etc), the owner should send by e-mail to admin@schrs.com the number of his former certificate and a new request form completed and signed by a measurer recognized by World Sailing or a National Authority regarding the changes, with in addition an attestation on the honor certifying that the rest of his boat has not undergone any other modification. (See model above)

The 2026 rating certificate will be sent to you within 10 working days of receiving the request.
